

## *The Leader in Power Steering Gears*

Steering systems for commercial vehicles require **safety, performance, quality and long service life**. All of these requirements are easy to say and hard to do.

Did you know that for over **100 years TRW** has been the industry leader in commercial steering systems proprietary design, product innovation and manufacturing capabilities? This expertise has resulted in over **400 patents** and unparalleled product performance and durability.

Now that 100 years plus of expertise is also available in **Genuine TRW Remanufactured** steering gears. **Genuine TRW Remanufactured** exclusively offer **OEM replacement parts** coupled with **OEM specification standards**. Our precision equipment, remanufacturing processes and testing procedures ensure that every **TRW Genuine Remanufactured** steering gear adheres to the highest quality standards.

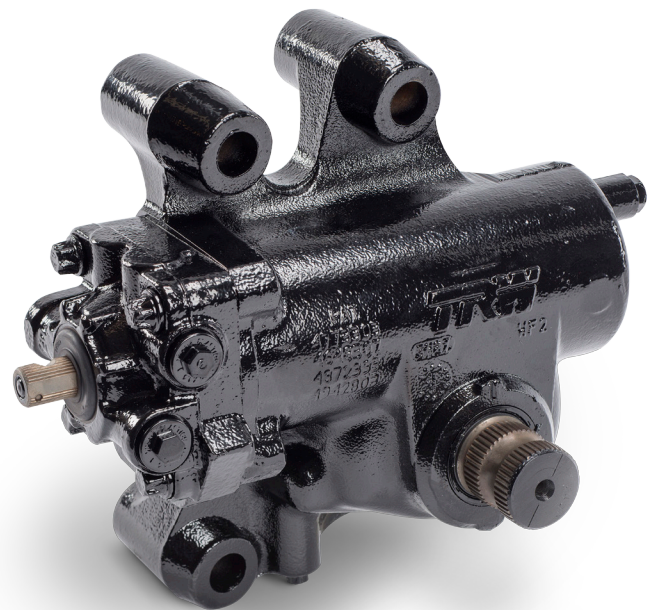

Did you know that there are over **575,000 repair events** of steering gears in the US and Canada annually?

Did you also know that with TRW's over **65% OEM market** share investing in **Genuine TRW Remanufactured** steering gears presents a phenomenal opportunity to grow your business?

Now, TRW is introducing a revamped steering gear product offering that reduces SKU count while expanding overall sales coverage. As a matter of fact, you can now cover **80% of all TRW steering gear demand with only 18 SKUs**.

Due to our quality remanufacturing processes, replacement of wear and damaged items with original components, and our robust inspection and testing procedures, **Genuine TRW Remanufactured** Steering Gears are now backed by an 18 month unlimited mileage warranty.

**On the following page is a recommended stocking inventory by OEM with the respective percentages of sales coverage by SKU.**

**Drive with Quality. Drive with Reliability. Drive with TRW.**
